

Exhibit 15. Deaths averted per million population for default versus VOC settings by country income group	51
Exhibit 16. LMIC example: deaths per million population per day and deaths averted per 100 fully vaccinated people (FVP) for default versus three scenarios	53
Exhibit 17. LMIC example: deaths, hospitalizations and infections averted per million population for default versus disease-blocking vaccine only	54
Exhibit 18. LMIC example: deaths, hospitalizations and infections averted per million population for default versus health systems unconstrained in LIC/LMIC.....	55
Exhibit 19. LMIC example: deaths, hospitalizations and infections averted per million population for default versus children <10 years 50% less infectious.....	56
Exhibit 20. Age groups in which hospitalizations averted for each vaccination coverage age targeting strategy by country income group.....	57
Exhibit 21. Age groups in which infections averted for each vaccination coverage age targeting strategy by country income group.....	58
Exhibit 22. LMIC example: deaths averted per million population for different vaccination rollout timings relative to peak	59
Exhibit 23. Deaths averted per million population for alternative coverage levels within priority groups, by country income group.....	60
Exhibit 24. Deaths per million population by vaccination status and country income group.....	61
Exhibit 25. Pre-pandemic projections and forecast revisions to global growth	62
Exhibit 26. Uptake of country groups	68
Exhibit 27. Grouping of countries and uptake assumptions.....	68
Exhibit 28. Dose requirements.....	70
Exhibit 29. Evolution of dose requirements by scenario	71
Exhibit 30. Production estimates in billion doses of COVID-19 vaccines per annum	75
Exhibit 31. Biennial supply–demand balance by group (low supply scenario)	77
Exhibit 32. Indicative cost of reaching different vaccination targets in LMICs and LICs over a two-year period.....	82
Exhibit 33. Number of countries and population with potential financial and system challenges by scenario.....	87
